German	A2

Interests

Cooking, the starting point of my RecetteVie and Semainier projects.

Sport and **reading**.

Maxime Youta

Junior Full-Stack Web Developer · Symfony · Angular · React

Web developer trained at CFITECH (2025), building complete applications through to production: Symfony on the back end, Angular or React on the front end, with automated tests and continuous integration. 5 apps online and 300+ automated tests. Over two years in customer relations and technical support at Orange and Luminus. Available immediately.

Live projects

Église Le Rocher · official website of a Brussels church, built with one other developer (React, TypeScript, Django REST, Docker): responsive pages and carousels, admin screens, image compression, Excel export, production fixes. see the site

RecetteVie + Semainier · bilingual recipe website with accounts, DeepL translation and a JWT-secured REST API (Symfony), used by a React meal planner. see the site

Figurama · Symfony online shop: cart, Stripe checkout with signed webhooks, stock reserved in a transaction, back office. see the site

SuiviFormation · Angular and TypeScript attendance tracker with two roles, a dashboard and automatic deployment. see the site

Escales · travel journal in plain PHP: my own router, MVC structure and security layer (CSRF, prepared statements, login throttling). see the site

Experience

Web Developer & Business Developer · Vyreon — Jan – Sep 2026 · Brussels
- Designed, built and launched client websites.
- Prospected, qualified leads in HubSpot and followed clients through to signature.

Webmaster, internship · BetterflyBox — Nov – Dec 2025
- Updated the WordPress site; front-end improvements.

Customer Advisor & Technical Support · Orange — Apr 2023 – Jun 2024 · Brussels
- Advice, sales and technical issue resolution (Salesforce).

Customer Advisor · IPG for Luminus — Apr 2022 – Apr 2023 · Liège
- Technical and billing support, B2B and B2C sales (Salesforce, SAP).

Shift Leader / Assistant Manager · KFC — Sep 2021 – Apr 2022 · Liège
- Led and trained the team, planned schedules, reporting.
