Maxime Youta

Junior Full-Stack Web Developer · Symfony · Angular · React

// PROFILE

I build complete web applications and take them to production: Symfony on the back end, Angular or React on the front end, with automated tests, security and continuous integration. Over two years in customer relations and technical support taught me to listen to users and to explain technical work simply.

`5 apps online` `300+ automated tests` `CI on every project`

// PROJECTS

Église Le Rocher
React · Django

eglise-evangelique-bruxelles.be · private repo

Official website of a Brussels church, built with one other developer: responsive pages and carousels, admin screens, image compression on upload, Excel export, production fixes.

RecetteVie + Semainier
Symfony API · React

puremax-lab.alwaysdata.net/recettevie · github.com/puremax-lab/RecetteVie

Bilingual recipe website with accounts, photo upload and DeepL translation, plus a REST API with JWT used by Semainier, my React meal planner with an automatic shopping list.

Figurama
Symfony · Stripe · SQLite

puremax-lab.alwaysdata.net/figurama · github.com/puremax-lab/Figurama

Online shop: cart, Stripe checkout with signed webhooks, stock reserved in a database transaction, back office.

SuiviFormation
Angular · TypeScript · Signals

puremax-lab.github.io/SuiviFormation · github.com/puremax-lab/SuiviFormation

Training attendance tracker with two roles and a dashboard, deployed automatically to GitHub Pages.

Escales
Plain PHP · PDO · MySQL

puremax-lab.alwaysdata.net/escales · github.com/puremax-lab/Escales

Travel journal with my own router, MVC structure and security layer (CSRF, prepared statements, login throttling).

// EXPERIENCE

Web Developer & Business Development
Jan – Sep 2026

Vyreon (self-employed) · Brussels

- Designed and developed web solutions for clients, front end and back end.
- Prospected, qualified client needs and followed clients up to contract signature.

Web Integration & Content Management Intern
Nov – Dec 2025

BetterflyBox

- Maintained website content in WordPress and helped with front-end improvements.
